REQUESTED ACTION: Review the Financial Assurance Submittal (Surety Bonds - Riders)
received from GNF-A/GEH for the Part 70 licensees identified on the docketed correspondence.
Part 50 licenses will be reviewed by NRR/DLP/FPB.

The purpose of the review of the licensee's financial assurance mechanism is to ensure that
sufficient funds will be available to carry out all required decommissioning activities prior to license
termination and, if the license is being terminated under restricted conditions, to enable an
independent third party to assume and carry out responsibilities for any necessary control and
maintenance of the site.

Determine if there are major deficiencies that make the submittal unacceptable for detailed review
and prepare a recommendation to accept or deny (if required). Prepare requests for additional
information, if needed. Evaluate any additional information submitted. Participate in meetings,
conference calls, and site visits, if necessary. Provide input for a Final Report. The review should
be consistent with the guidance of NUREG-1757, Volume 3, Revision 1, Financial Assurance,
Recordkeeping, and Timeliness.
