RE: NRC Materials License – Request for Consent to Transfer of Control for License numbers 21-26597-01MD and 21-32812-01MD

Dear Regional Administrator:

Hot Shots Nuclear Medicine, LLC ("Hot Shots") and CPI Pharmacy Services Holding, LLC ("CPI") wish to provide notification that a change in the indirect control of their respective facilities will occur on or about June 3, 2019, or as such earlier time as NRC provides consent. Specific address and NRC Materials License number are listed on page two, below. We respectfully request the NRC's consent to the indirect transfer of control that will result from this transaction, as set out below.

PharmaLogic Holdings Corp. will acquire 100% of the ownership interest of Hot Shots, the current 100% indirect owner of CPI. Hot Shots and CPI will retain their corporate names and federal employer identification numbers. They will also continue to operate their businesses. In other words, there will be no change in ownership of the licensed Hot Shots (License No. 21-32812-01MD) or CPI (License No. 21-26597-01MD) facilities as a result of the transaction. Pre- and post-closing organizational charts are enclosed for your reference.

All conditions included in the license application packet and the license for the facilities remain in effect without change. There has been no change in the management or professional staffing of the facilities. Specifically:

- There will be no change in personnel or duties that relate to the licensed program.
- There will be no changes in the organization, location, facilities, equipment, or procedures that relate to the licensed program.
- Hot Shots and CPI will continue to maintain compliance as it relates to area surveys, wipe tests, training, quality control and related records presently and upon closing of this transaction.
- Hot Shots and CPI confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate.
- Hot Shots and CPI confirm that both transferor and transferee agree to transferring control of the licensed material and activity, and the conditions of transfer, and the transferee has been made aware of any open inspection items and its responsibility for possible resulting enforcement actions, as applicable.

RECEIVED MAR 11 2019

- Hot Shots and CPI confirm that the transferee will abide by all constraints, conditions, requirements, and commitments of the transferor.
- The condition required for fuel cycle facilities does not apply to either licensee.

In sum, there will be no change in the operations at the facilities and no change in the direct owner and operator of the facilities as a result of this transaction. Because there will be a change in the indirect owner of the facilities, we are submitting this Request for Consent to Transfer of Control for your review and approval.

Lastly, PharmaLogic Holdings Corp. holds multiple NRC RAM licenses and Agreement State RAM licenses. We have enclosed current copies of these licenses. The corporate office for PharmaLogic Holdings Corp. is located in Boca Raton, FL. The corporate officers of PharmaLogic Holdings Corp. are: (1) Steve Chilinski, President and CEO; (2) Frank Edwards, CFO; (3) Glen Palmer, Vice President; and (4) Reid Gadziala, Director Regulatory. PharmaLogic Holdings Corp. is owned by Webster Equity Partners, a private equity firm located in Waltham, MA.

Should you have any questions please contact me; contact information below.
