TECHNICAL SPECIFICATIONS

16.0 TECHNICAL REQUIREMENTS MANUAL

2017-002 | The Technical Specification amendment to convert the DAEC Custom Technical Specifications (CTS) to the Improved Technical Specifications (ITS) per NUREG-1433 (Amendment #223) includes relocation of certain CTS requirements to the Technical Requirements Manual (TRM). The TRM is a licensee controlled document incorporated herein by reference into the UFSAR and subject to revision per 10 CFR 50.59 by Operation License (OL) condition (See Section 2.C.(7) and Appendix B to OL).

The TRM is bound separately from the UFSAR for user convenience.
