

APPENDIX O - EMERGENCY PLAN AND SECURITY PLAN

0.1 EMERGENCY PLAN

An emergency plan which describes the emergency organization, facilities, and procedures for dealing with nuclear incidents has been developed for the Peach Bottom Atomic Power Station. This plan has been prepared using a variety of sources for guidance. The basic format of the plan follows that specified in NRC Regulatory Guide 1.101. NUREG-0610 and NUREG-0654 are used as references for content.

0.2 SECURITY PLAN

The security at Peach Bottom Units 2 and 3 is governed by the following four documents which have been approved by the NRC | and incorporated into the Operating License:

- 1) Physical Security Plan.
- 2) Safeguards Contingency Plan.
- 3) Plant Security Personnel Training and Qualification Plan.
- 4) Cyber Security Plan |
