Subject: [External_Sender] Comment on Turkey Point license renewal

To Whom It May Concern,

Please read the following article from this morning's Miami Herald about NextEra Energy the parent company of Florida Power & Light.

<https://www.miamiherald.com/news/business/biz-monday/article230600649.html>

They are now ranked #1 of the top 10 energy companies by market capitalization. Please, when considering the environmental and economic impact on the people of South Florida, put the people above profits.

Renew the Turkey Point license with the stipulation that they close down the canals and build cooling towers which by any standards are considered to be the nuclear industry's best practices for cooling nuclear reactors.

Sincerely,
Mary P. Bloom
