Mr. Lowman,

Sorry for the delay getting back to you as I was out for 2 days. No, we do not intend to distribute any by-product from the Los Angeles facility, only from our Torrance facility located at 1001 Knox Street, Torrance, CA 90502. If you have further questions, please let me know.

Regards,

Alvaro Herrera

Alvaro,

In your state license, the radioactive material may only be used at 1001 Knox Street, Torrance, CA. In your NRC e-license, you are allowed to distribute from this same location in addition to 5005 McConnell Avenue, Los Angeles, CA; do you still intend to distribute from the LA facility? If so, that facility needs to be included in your state license. If not, please reply to this email that you will no longer distribute from the LA location.

Thanks,

Don Lowman

Don,

Per your request, please review attached Teledyne Reynolds radioactive materials license number 2997-19 amendment number 43 dated March 20, 2019. If you have any questions or need additional information, please let me know.

Regards,

Alvaro Herrera

Mr. Herrera,

Regarding your recent intercompany consolidation, we will need a copy of your updated California possession license reflecting the new legal name before we can issue your amended NRC license. Please provide me with a copy of your revised state possession license...you can send it to me via email.

Please let me know if you have any questions. Thank you.
