RE: Request for Amendment to License #24-01143-06

Dear NRC Reviewer:

Please amend license number 24-01143-06, Section 8C, and change the "Maximum amount that licensee may possess at any one time under this license" from 1 curie total to **2 curie total**.

The proposed increase to the RAM License possession limit is aimed at addressing the increasing need by the greater community we serve in Southwestern Missouri involving the use of unsealed byproduct material requiring a written directive (10 CFR 35, Subpart E). This proposal has been approved by the CoxHealth Radiation Safety Committee.

Thank you for your attention to this request. If you have any questions concerning the above amendment request, or if we can be of further assistance, please do not hesitate to call us at (417) 269-6115. The fax number where we can be reached is 417-269-6979.

Sincerely,
