SUBJECT: License Number 13-09639-05

Dear Materials Licensing,

Last October I had requested license amendment to "possession and storage only with intent to dispose" due to the lack of principal license activity at Indiana State University.

I have recently been made aware of a research proposal that has been awarded that will be using radioisotopes (P-32). Therefore, I would like to request a license amendment to restore active use of our material license.

Thank you for the consideration and, please, feel free to contact me for any additional information you may require.

Sincerely,

David Ellis, Director/RSO
