SUBJECT: OHIO LUMEX REQUEST FOR ADDITIONAL INFORMATION FOR NEW
EXEMPT DISTRIBUTION LICENSE AND SEALED SOURCE AND DEVICE
EVALUATION

Dear Mr. Neyman:

This letter is in response to your applications dated April 12 and March 20, 2019, respectively, requesting a new exempt distribution license and a sealed source and device evaluation for the device Series GC-IMS of ion generators.

In reviewing your requests, we find additional information is required to complete the review of your applications. In the enclosure to this letter you will find the list of the questions and items not addressed in your applications.

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in Title 10 of the *Code of Federal Regulations* (10 CFR) Paragraph 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390(b)(1).

We will continue our review upon receipt of this information. If we do not receive your reply within 30 calendar days from the date of this letter, we will consider your application as having been abandoned by you. This action would be without prejudice to the resubmission of another application with the required information.

Your application for a distribution license should not contain information concerning the possession and use of radioactive material because that is covered in a separate possession license.

Any correspondence regarding your applications should reference Mail Control Number 612074. In accordance with 10 CFR Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact Tomas Herrera (301) 415-7138, or by e-mail at Tomas.Herrera@nrc.gov regarding the sealed source and device registration, and Don Lowman at (301) 415-5452, or by e-mail at Donald.Lowman@nrc.gov regarding the exempt distribution license.

Sincerely,

X

Don Lowman

Health Physicist
