Samuel Chilk
Secretary of NRC
Nuclear Regulatory Commission
Washington D.C. 20555

Dear Mr. Chilk:

Please grant me permission to make a limited appearance statement at the licensing hearings for PPL's Susquehanna Steam Generating Plant, docket numbers 50-387 and 50-388.

I will speak on the lack of a radioactive waste disposal plan for the Berwick plant.

I am also very concerned that this plant is not needed at all because PPL is already generating excessive amounts of electricity in this Pennsylvania area. So this plant will unnecessarily, yet drastically, raise prices for consumers.

Also, please add my name to the mailing list for information about these hearings. Thank you.

Sincerely,

Cheryl D. Dorko
