**BRIEF PROJECT TITLE AND WORK DESCRIPTION**

(a) The title of this project is: Purchase of McAfee Licenses and Support

(b) Summary work description:

The Contractor shall provide the following TAA compliant licenses and support:

	<b>TOTAL</b>				<b>\$339,098.25</b>

**Brand Name Justification:**

This brand name procurement of McAfee endpoint security software is necessary because it is a required component of the DHS CDM Phase I agency dashboard solution. The agency CDM dashboard system was designed by the DHS integrator to only support McAfee Application Control client software as a data source for the software asset management information displayed in the dashboard, and the CDM dashboard system is not interoperable with comparable solutions from other vendors.

The NRC does not currently intend to replace its investment in the CDM Phase I solution because to do so would cause the NRC to incur significant additional cost, would be highly disruptive and would introduce a significant cybersecurity risk to the NRC. Standards for agency software toolsets are established and maintained for several years to maximize the return on those investments and to minimize disruption to agency operations.

(End of Clause)

The individual registering in FedConnect® must have authority to bind the vendor/contractor. There is no charge for using FedConnect®. This means that unless provided in a contract document or specifically authorized by the contracting officer, NRC technical personnel may not issue contract modifications, give formal contractual commitments, or otherwise bind, commit, or obligate the NRC contractually. Informal unauthorized commitments, which do not obligate the NRC and do not entitle the contractor to payment, may include:

- (1) Encouraging a potential contractor to incur costs prior to receiving a contract;
- (2) Requesting or requiring a contractor to make changes under a contract without formal contract modifications;
- (3) Encouraging a contractor to incur costs under a cost-reimbursable contract in excess of those costs contractually allowable; and

Both the initial and refresher IT security training courses generally last an hour or less and can be taken during the employee's regularly scheduled work day. Contractor employees, consultants, and subcontractors shall complete the NRC's online annual, "Computer Security Awareness" course on the same day that they receive access to the agency's IT equipment and/or services, as their first action using the equipment/service. For those contractor employees, consultants, and subcontractors who are already working under this contract, the on-line training must be completed in accordance with agency Network Announcements issued throughout the year, within three weeks of issuance of this modification.

(End of Clause)

#### ANNUAL AND FINAL CONTRACTOR PERFORMANCE EVALUATIONS

Annual and final evaluations of contractor performance under this contract will be prepared in accordance with FAR Subpart 42.15, "Contractor Performance Information," normally at or near the time the contractor is notified of the NRC's intent to exercise the contract option. If the multi-year contract does not have option years, then an annual evaluation will be prepared [ ]. Final evaluations of contractor performance will be prepared at the expiration of the contract during the contract closeout process.

The Contracting Officer will transmit the NRC Contracting Officer's Representative's (COR) annual and final contractor performance evaluations to the contractor's Project Manager, unless otherwise instructed by the contractor. The contractor will be permitted thirty days to review the document and submit comments, rebutting statements, or additional information.

Where a contractor concurs with, or takes no exception to an annual performance evaluation, the Contracting Officer will consider such evaluation final and releasable for source selection purposes. Disagreements between the parties regarding a performance evaluation will be referred to an individual one level above the Contracting Officer, whose decision will be final.

The Contracting Officer will send a copy of the completed evaluation report, marked "Source Selection Information", to the contractor's Project Manager for their records as soon as practicable after it has been finalized. The completed evaluation report also will be used as a tool to improve communications between the NRC and the contractor and to improve contract performance.

The completed annual performance evaluation will be used to support future award decisions in accordance with FAR 42.1502 and 42.1503. During the period the information is being used to provide source selection information, the completed annual performance evaluation will be released to only two parties - the Federal government personnel performing the source selection evaluation and the contractor under evaluation if the contractor does not have a copy of the report already.
