---

Norma,

We have reviewed the provided documents and find no proprietary information included.

We are also providing for a better file for 8211080181 that the NRC may want to use. It came from Certrec and is a little cleaner.

In review of the file "Big Rock Point PSDAR", we found the following items that you may want to look at:

- PDF Page 77/265 – It looks like Page 6 of 31 is missing.
- PDF Page 78/265 – It looks like Page 8 of 31 is missing.
- PDF Page 118/265 – Page 57 of 78 thru 60 of 78 are out of place in the file. These are extra. Need to remove. Verified pages are in correct order starting on PDF Page 163. Need to Delete PDF Pages 118 thru 122. This removes the repeated pages 57 of 78 thru 60 of 78 and the repeated 17 of 78.
- PDF Page 232/265 – It appears that Page 1 and 2 of the Attachment is missing. These pages are at PDF Page 263/265 and 264/265. Need to move these two pages back to after PDF Page 232/265 and before 233/265.

Thanks,  
Stephenie

Good afternoon,

I am working on an exemption request for the decommissioning funding plan. The FRN makes reference to two documents (the documents attached to this letter) that are currently available in microfiche form. As part of the our legal department review, I was asked to add the attached documents in the ADAMS main library. These documents are currently profiled as public in the ADAMS legacy library, which is the NRC's electronic library that includes older documents. I will appreciate that you review these documents and let me know if there is any information that should be withhold or not under your current company's guidance.

**NOTE:** My approach was going to be to make the item No. 8211080181 public as well as the PSDAR (ADAMS Legacy Number 9709240373), since both documents are currently profiled as publicly available. Let me know if you agree with this approach. **I will appreciate your response by CoB 7/8.**

Thanks in advance,

*Norma Garcia Santos*
