SUBJECT: TURKEY POINT NUCLEAR POWER PLANT – OPERATOR LICENSING
EXAMINATION APPROVAL 05000250/2019302 AND 05000251/2019302

Dear Ms. Cashwell:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Turkey Point Nuclear Plant, Units 3 and 4.

The U.S. Nuclear Regulatory Commission (NRC) has approved the subject examinations and you may administer the written examinations in accordance with Revision 11, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of August 5, 2019. The NRC staff will administer the operating tests during the weeks of July 22, 2019, and July 29, 2019. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at 404-997-4551.

Please contact your Chief Examiner, Mr. Gary Callaway, at 423-855-6502, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

/RA/

Gerald J. McCoy, Chief
Operations Branch 1
Division of Reactor Safety
