Subject: amendment letter for new location - additional information needed
Date: Tuesday, July 23, 2019 1:24:00 PM

License No. 37-20647-01
Docket No. 030-20034
Control No. 612601

Mr. Howell,

I just was given your letter dated July 12 requesting a new storage location, and asked to review this along with the request for the new RSO.

Our current guidance, NUREG-1556, "Consolidated Guidance About Materials Licenses", Volume 1, Revision 2, "Program-Specific Guidance About Portable Gauge Licenses" (1556 Vol 1 Rev 2), in Section 8.9, now requests that you provide a facility diagram of the storage location, noting the activities in adjacent areas (including rooms above and/or below the storage area); and information related to public dose and security as described in Sections 8.10.5 and 8.10.6 NUREG-1556, "Consolidated Guidance About Materials Licenses", Volume 1, Revision 2, "Program-Specific Guidance About Portable Gauge Licenses".

My apologies, I was not aware of this letter when we talked earlier.

Betsy

Subject: [External_Sender] RSO Training

Good morning,

As requested per our phone conversation, I have attached the RSO training course certifications I have received. I have also attached certifications for nuclear gauge/HAZMAT training I have received prior to being designated RSO. In addition to these trainings, I have had in the field training, and have used nuclear gauges on DOT projects.

Please let me know if there is anything else you need. I appreciate your help!

Thanks,

George Howell | Radiation Safety Officer | Administrative Support – Mid-Atlantic Admin Group
