Mr. Kenneth S. Ohr  
Site Vice President  
Quad Cities Nuclear Power Station  
Exelon Generation Company, LLC  
22710 206<sup>th</sup> Avenue North  
Cordova, IL 61242-9740

**SUBJECT: QUAD CITIES NUCLEAR POWER STATION, UNITS 1 AND 2—OPERATOR  
LICENSING REEXAMINATION APPROVAL**

Dear Mr. Ohr:

The purpose of this letter is to confirm the final arrangements for the upcoming licensing reexamination at the Quad Cities Nuclear Power Station, Units 1 and 2.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator licensing reapplication in connection with this reexamination and separately provided an ES-201-4 to Ms. Danielle Fuson, Site Training Director.

The NRC has approved the subject examination. The NRC staff will administer the required portion of the operating test in accordance with Revision 11 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of July 22, 2019. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of the licensed operator applicant at your facility. If you determine that this examination is not appropriate for licensing the operator at your facility, do not administer the examination and contact me at 630-829-9722.

Please contact your Chief Examiner, Mr. Randal Baker, at 630-829-9871, if you have any questions or identify any errors or changes in the license level (senior reactor operator) or type of examination (partial operating test-dynamic scenarios) specified for the applicant being examined.

Sincerely,

**/RA/**
