The referenced letters were interim reports as is this letter. B&W Test Specification (No 62-1005067-00) was revised to require a continuity check for the NI/RPS cabinets to assure that no loss of grounding has occurred and to obtain baseline data. The detailed CPCo implementing procedure(s) to accomplish the baseline and subsequent testing will be released for use by January 4, 1980.

Another report, either interim or final, will be sent on or before January 11, 1980.
