Dear Mr. Ippolito:

In the Matter of the)	Docket Nos. 50-259
Tennessee Valley Authority)	50-260
		50-296

In an August 17, 1979, letter from T. D. Keenan (Owners' Group Chairman) to D. F. Ross, the BWR Operating Plant Owners' Group submitted the General Electric report "NEDO-24708, Additional Information Required for NRC Staff Report on Boiling Water Reactors." This report responds to the short-term generic information requested by the Staff's Bulletins and Orders Task Force (B&OTF). A revision to that report, which is due by November 16, 1979, will include the remainder of the information as agreed to in meetings with the B&OTF in San Jose, California on July 12, 1979. It is hereby requested that NEDO-24708 be included on the Browns Ferry Nuclear Plant docket.

Very truly yours,
