Attention: Mr. R. H. Engelken

Subject: WPPSS NUCLEAR PROJECTS NOS. 3 & 5  
IE BULLETIN NO. 79-02, REVISION NO. 1  
"PIPE SUPPORT BASE PLATE DESIGNS USING  
CONCRETE EXPANSION ANCHOR BOLTS"

Dear Mr. Engelken:

The Washington Public Power Supply System has reviewed the subject IE Bulletin and submits the following in response. It has been determined that there is no plan to use concrete expansion anchors for attachment of Seismic Class I pipe supports for WNP-3 and 5.

Should it be determined that it is necessary for these projects to utilize concrete expansion anchors then the criteria prescribed in the Bulletin will be met.

Please contact me should you have any question in regard to this response.

Very truly yours,

*LT Harold for /*  
*DL Renberger*
