(b) VYNPC letter to USNRC-IE, dated August 9, 1979
(WVY 79-89)

Dear Sir:

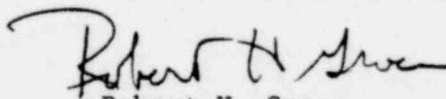

Subject: Typographical Omission in Response to I&E Bulletin 79-08

Our letter, Reference (b), provided additional information in response to I&E Bulletin 79-08. An omission has been identified on the second page, second paragraph, line seven. This line should read ". . . loop sample valves provide post-plant monitoring capability by allowing samples of the reactor coolant to be obtained. . .".

We trust this clarifies any possible misunderstanding which might have arisen.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORPORATION

Robert H. Groce,
Licensing Engineer
