(Black Fox Station, Units 1 and 2))

Gentlemen:

Consistent with Applicants' past practice, I am enclosing three documents for the information of the Board and the parties. The first two documents (Exhibits 1. and 2.) are further responses by the General Electric Company with respect to the NRC Staff's continuous quest for information on certain TLTA test results. The third document, NUREG-0600, is the report by the NRC's Office of Inspection and Enforcement concerning its investigation of the Three Mile Island accident. These enclosures are only being provided to the Licensing Board and counsel for the parties.

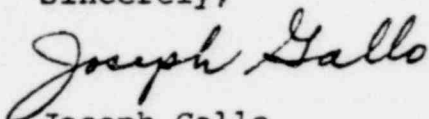

In my letter of August 11, 1979, to the Licensing Board and the parties, I erroneously stated that the responses

to the enclosed motion were due by August 24. August 27 is the correct date and I apologize for any inconvenience. As a consequence, Applicants request that the prehearing conference be held on either August 30 or 31.

Sincerely,

A handwritten signature in cursive script that reads "Joseph Gallo".
