JUL 8 1973

Docket No. 50-289

Mr. M. Lewis  
6504 Bradford Terrace  
Philadelphia, Pennsylvania 19149

Dear Mr. Lewis:

In response to your letter to me postmarked July 6, I am enclosing a copy of the Order issued by the Commission on July 2 which requires that the Three Mile Island Unit No. 1 reactor remain in cold shutdown condition. In that Order, the Commission announced its intention to issue within thirty days a more detailed Order and a Notice of Hearing in the matter. When a Notice of Hearing is published, interested persons will be able to petition to intervene in the proceeding. The Notice will describe the procedures which you should follow if you seek to become a party to the proceeding. I will be happy to send you a copy of the Order and Notice of Hearing when it is published.

I am also enclosing for your information a copy of the Commission's Rules of Practice, Part 2 of Title 10 of the Code of Regulations. While the Commission has not yet spelled out the procedures to be followed in the proceeding on Three Mile Island Unit 1, it is likely that many of these rules of practice will be applicable. In particular, I call your attention to Appendix A of the Rules of Practice which describes in narrative form the general procedures followed in hearings conducted by the NRC.

If I can be of further assistance, please call on me. I may be contacted by telephone at (301) 492-7676.

Sincerely,

Guy H. Cunningham, III  
Acting Deputy Chief Hearing Counsel
