Dear Mr. O'Reilly:

SUBJECT: Grand Gulf Nuclear Station  
File 0260/0498/15525/15526  
Interim Report No. 3 For  
PRD No. 77/13 Safety Relief  
Valve Control System  
AECM-78/55

On February 1, 1978, we filed an interim report on a deficiency in the Safety Relief Valve Control System for Grand Gulf Nuclear Station. We had anticipated that a final report would be available by August 1, 1978. However, the General Electric Company and the NRC have encountered delays in reaching agreement on a generic solution, and we now estimate that our final report will be available March 1, 1979.

Yours truly,

*J. P. McGaughy, Jr.*
