

MISSISSIPPI POWER & LIGHT COMPANY  
*Helping Build Mississippi*  
P. O. BOX 1640, JACKSON, MISSISSIPPI 39205

June 9, 1978

PRODUCTION DEPARTMENT

U. S. Nuclear Regulatory Commission  
Light Water Reactors Branch No. 1  
Division of Project Management  
Washington, D. C. 20555

Attention: Mr. John F. Stolz, Chief

Dear Sir:

SUBJECT: Grand Gulf Nuclear Station  
Units 1 & 2  
Docket Nos. 50/416, 50/417  
File 0270/15521/0472/11800  
NRC Staff Position MTEB 5-7  
AECM-78/36

Mississippi Power & Light Company earlier reported that we would respond to your Branch Technical Position MTEB 5-7 by May 19, 1978. We are now in progress of evaluating recommendations from our architect-engineer and nuclear steam supply vendor for various methods of eliminating the extremely low probability of stress corrosion cracking described in your position. Because of the unexpected degree of coordination required for this review, we wish to extend our response date to June 30, 1978.

Yours truly,

for J. P. McGaughy, Jr.  
Director of Power Production
