ATTN: Docketing and Service Section

Dear Secretary:

I am requesting to appear before the Atomic Safety and Licensing Board on a "limited appearance" basis in regards to the hearings on the possible restart of Three Mile Island - Unit 1.

Please enclose a copy of the hearing schedule and order and notice of hearing and any other pertinent information in this regard. Thank you.

Cordially,

SERVED SEP 19 1979

Tom Smithgall

9/9/79

To the NRC Secretary:

My husband + I would like to appear before the Atomic Safety and Licensing Board (on a "limited appearance" basis) during the upcoming hearings on restarting TMI Unit I.

The basis for our request is how deeply the operation of TMI affects our ability to make a living. If TMI starts up again I will be forced to leave my job out of concern for my life and health, since my sales territory extends to Northwest Lancaster County, well within the five mile radius. My husband faces the same dilemma.

Please let me know where - when, + we will be there to express our problem.

Acknowledged by card.....

≡ To Whom It May Concern

As a private citizen in the TMI area, I would like to be granted a limited appearance in the hearings which are to be held by the NRC prior to any possible reopening of Unit #1. I would also like, if possible, to share that time with my wife, Doreen.

Thank you

Stephen R Snell

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C.

Dear sir:

I am writing requesting the opportunity to make a limited appearance before the Atomic Safety and Licensing Board at the hearings concerning the restart of Three Mile Island Nuclear Power Plant Unit I.

I am a 21-year old resident of Lancaster County and a student majoring in biology at Millersville State College. As a female of child-bearing age and as a human being with many years of life ahead, I was very threatened by the accident of last March at Three Mile Island and left the area as soon as possible. I feel strongly that decisions concerning the clean-up of the power plant and the restart of Unit I are being made primarily on the basis of economics and with little concern for the safety of the people, plants and animals of the area.

Please keep me informed about the time and the place of the hearings.

Thank you.

Sincerely,

Carolyn J. Kroehler

Dear Sir:

I am writing to request the opportunity to make a limited assurance at the hearings concerning the status of Three Mile Island Unit II. I want to that individuals may address the Atomic Safety and Licensing Board to express their views about the effects that reopening TMI might have on the people of the Area. I feel that my family's quality of life was significantly and very adversely affected by the March 28th accident. Since then we have suffered grave mental anguish over the possible future health consequences for our baby son. We have great anxiety about drinking our city water which comes from the Susquehanna River. We are even strongly considering moving out of this area. The only way we can at least be happy will be from TMI 129 nuclear plant instead of the current situation from two TMI and Three Mile Island.

Acknowledged by card

I believe I represent the feelings of many young parents in this area who fear for the future of their children, as well as grandparents worried about their grandchildren. I think it is important that our views be considered. We are the ones who will feel the effects of your decisions.

Sincerely,

Mrs. B. A. Schmidt

Dear Sir -

I would like an opportunity
to make a limited appearance
statement at the P.A. - Hearing
regarding TMI in Middletown,
Pa. I mailed an earlier request,
as did my husband but to
an insufficient address. His,
enclosed, was returned but to
date mine has not been - hence
I fear it may be returned after
the deadline, thus this additional
request. Thank You

Lancaster, Pa.

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C.

Dear Sir:

I am requesting an opportunity to state my views concerning the reopening of Three Mile Island Unit 1 at the hearings scheduled for this purpose. I am a private citizen and would like to state my views concerning the psychological and health issues related to the reopening of this plant. Please let me know what the next step is to appear on a limited basis at these hearings. My views are briefly that the psychological damage that would occur from reopening the plant would not be worth the risks and that the possibility of further leaks of radiation to a community already having suffered enough exposure would be very detrimental to this community.

sincerely,

Barbara J. Buckman
