Dear Mr. O'Reilly:

Docket No. 50-289  
Operating License No. DPR-50  
Nonroutine 30-Day Environmental Report 75-01

In accordance with 5.6.2.b(4) of the Environmental Technical Specifications for our Three Mile Island Nuclear Station Unit 1 (TMI-1), we are submitting notification of a measured level of radiation which exceeded four times the control station value for a weekly composite of grab samples representing the period January 4 through January 25, 1975.

We would like to point out that the level of radioactivity associated with this sample was less than 1/1000 of the Maximum Permissible Concentration limit stated in 10 CFR 20 for members of the public. Hence, at no time was the health and safety of the public threatened by the radiological condition of the river as indicated by this sample.

We trust that the submission of this report satisfies the reporting requirements referenced above and adequately answers any concerns you may have.

Sincerely,

Signed: R. C. ARNOLD
