Washington, D. C. 20555

Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Docket No. 50-289
Operating License No. DPR-50

Per a letter dated December 1, 1976, you submitted a model annual operating report for our review and comment. After a careful review of the proposed model, our Technical Specifications, and applicable federal regulations, we believe that the report outlined in the attached page, which differs slightly from the proposed model, better suits current requirements.

Our annual operating report Technical Specifications requirements are based on USNRC Regulatory Guide 1.16, Rev. 4, which is the accepted guidance for these requirements in Standard Technical Specifications. Therefore, we believe that our proposed outline will also be appropriate for other facilities. Unless new guidelines or requirements are proposed by the Commission on this subject, we intend to submit our 1977 annual operating report using the attached format.

Sincerely,

J. G. Herbein
