Regulatory Docket File

Gentlemen:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Docket No. 50-289
Operating License No. DPR-50

Please be advised that the TMI-1 "Reactor Building Ring Girder Inspection Report, Three Years After the Structural Integrity Test" will be submitted by August 28, 1977, i.e. three months after the performance of the inspection, in accordance with Technical Specification 6.9.2.B.(1)(b). Note that this submittal due date is inconsistent with Technical Specification 4.4.2.2.D which requires this report to be submitted within 30 days after the completion of the inspection. This discrepancy was noted earlier

Mr. James P. O'Reilly, Director
Office of Inspection and Enforcement, Region 1

- 2 -

this year and Technical Specification Change Request No. 53.4 was submitted on April 28, 1977 to correct it. In the meantime, we feel that Technical Specification 6.9.3.B.(1)(b), approved on February 26, 1976, by Amendment No. 11 to our License, superseded Technical Specification 4.4.2.2.D, which is part of the original TMI-1 Technical Specifications document, and therefore stands as the most recent reporting requirement.

Sincerely,

J. G. Herbein
Vice President
