Dear Mr. Lear:

Three Mile Island Nuclear Station Unit I
Docket No. 50-289
Operating License No. DPR-50

In our letter of April 19, 1975, we agreed to provide a schedule for the completion of equipment modification necessary for the alternate flow path to assure that boron precipitation would not compromise long-term core cooling capability following a loss-of-coolant accident (LOCA). We also agreed to supply the appropriate abstracts of associated procedures or procedure revisions. We are unable to provide a full response at this time but anticipate being able to provide a full response by May 27, 1975.

Sincerely,

R. C. ARNOLD
Vice-President
