Mr. R. W. Reid, Chief  
Operating Reactors Branch No. 4  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Sir:

Three Mile Island Nuclear Station, Unit 1  
Operating License No. DPR-50  
Docket No. 50-289

Your letter of September 14, 1977, requested Met-Ed to submit the answers to seven questions by November 18, 1977. These answers were to provide you with the information to make a reassessment of the steam generator and reactor coolant pump support. We are unable to assemble all the information without input from B&W, our nuclear steam system supplier. They will require six weeks to supply the information and we will then review it. Therefore, we are requesting an extension until January 31, 1978, to submit the information.

Sincerely,

  
J. G. Herbein  
Vice President
