

ROCHESTER GAS AND ELECTRIC CORPORATION • 39 EAST • ERIE • ROCHESTER, N.Y.

November 7, 1979

Mr. Harold R. Denton
Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: NRC Docket No. STN 50-485

Dear Mr. Denton:

On October 2, 1979, the Standardized Nuclear Unit Power Plant System Final Safety Analysis Report (SNUPPS FSAR) was tendered for your completeness review by letter from Mr. Petrick of the SNUPPS organization. This letter is to confirm that the SNUPPS FSAR should be considered tendered by Rochester Gas and Electric Corporation, et al. in Docket No. STN 50-485. The SNUPPS FSAR, as accepted for review, will be incorporated by formal amendment to the Application for Licenses at a future date. At that time, copies of the amendment and the SNUPPS FSAR will be served on the appropriate parties.

Very truly yours,

L.D. White, Jr.
