Subject: IE Bulletin 79-19

Dear Mr. O'Reilly:

In our letter of September 27, 1979, in response to IE Bulletin 79-19, "Packaging of Low Level Radioactive Waste for Transport and Burial", we notified you that we would provide a response for Item No. 9 on or about October 31, 1979. Our response to that Item for North Anna Power Station Unit No. 1 is attached.

Very truly yours,

C. M. Stallings

C. M. Stallings
Vice President-Power Supply
and Production Operations

NORTH ANNA POWER STATION
SUPPLEMENTAL RESPONSE TO IE
BULLETIN 79-19

NRC ITEM 9. Report, in writing, within 45 days, your plan of action and schedule with regard to the above items.

RESPONSE: Time schedule for the Implementation of Applicable Items

- Item 1. The latest revision of DOT Regulations as contained in Title 49 has been received and is now on file at the station.
- Item 3. The administrative procedure for the designation of personnel responsible for the safe transfer, packaging and transfer of low-level radioactive materials has been written and is presently awaiting safety committee approval.
- Item 5. The Operations and Health Physics development programs are in the process of being expanded to incorporate the additional training required by IE Bulletin 79-19. Changes recently proposed for acceptable shipment and burial will require review and development of training material. Both the training programs will be completed and implemented on or about July 1, 1980.
