Dear Sir:

At the present time Met-Ed is making modifications to the TMI-1 Auxiliary/Fuel Handling Building Exhaust Ventilation System to meet conditions set forth in the Commission's Order and Notice of Hearing. These modifications will require changes to be submitted to the NRC with respect to our Technical Specification Change Request No. 7A which was submitted to the NRC October 28, 1975. Therefore, Met-Ed is requesting the NRC to postpone completion of this TSCR pending completion of the ventilation system modifications.
