Director of Nuclear Reactor Regulation  
ATTN: Mr. Olan D. Parr, Chief  
Light Water Reactors Branch #3  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Gentlemen:

Docket No. 50-423  
AEC-MP3-200

SUBJECT: Millstone Unit No. 3  
Geological Fault Data - Circulating  
and Service Water Pump House

We are hereby submitting for your information, the data requested by your Mr. H. LeFevre at a meeting held on November 15, 1979 at Millstone pertaining to faulting in the circulating and service water pump house excavation.

The data included in this submittal consists of:

1. A site map showing location of all faults found at the site.
2. A description of faults found on site listing displacement, description of fault, etc.
3. A detailed map of the pump house excavation showing faults, slicken sides, and igneous intrusions.
4. A description of faulting in the pump house.

If you have any questions, please contact our project staff.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
