SHIELDS L. DALTROFF
VICE PRESIDENT
ELECTRIC PRODUCTION

January 14, 1980

Mr. Darrell G. Eisenhut, Acting Director
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, DC 20555

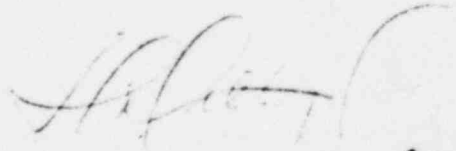

Dear Mr. Eisenhut:

Enclosed is Philadelphia Electric Company's upgraded Emergency Plan for Peach Bottom Atomic Power Station as requested in your letter of October 10, 1979. The January 16, 1980, submittal date is in accordance with a verbal agreement with the NRC to submit our plan by this date.

I want to emphasize that this Emergency Plan is presently in draft form. Additions and revisions will continue to be made as more information is received concerning the NRC's intent for emergency planning. We continue to work with State and County officials in Pennsylvania and Maryland as their plans are developed. Appropriate parts of their plans will be incorporated into ours as they become available.

If you have questions or require additional information, please contact my office.

Very truly yours,

Encl To:
