Mr. Moenster,

I am working on your amendment request for you license 24-11128-02. Please provide the following information by August 2, 2019 to complete the amendment request via signed and dated cover letter.

- 1) Provide all commitments from the Y-90 licensing guidance. Certain portions, i.e. the second paragraph from the "Procedures for Administration" is missing, the "Written Directives" portion is changed, Termination of Treatment due to Stasis, and others are missing or incomplete.
- 2) The training documentation for Cody Morris for 35.100/200 does not seem to be included. Provide training via the desired pathway for this AU.

If you have any question please contact me at your convenience and confirm receipt of this message.

Respectfully,

*Daniel C. Strohmeyer, CHP*
