Subject: Niowave Additional Information for Amendment 09 to NRC Materials License No. 21-35144-02. Mail Control Number 613653.

Dear colleagues,

Per our phone conversation on August 5, 2019, we confirm that our emergency procedures are outlined in Appendix 10.3 of our letter dated April 21, 2017. In our letter dated June 29, 2018 we also described expected emergency scenarios involving the use of radium-226 and outlined methods to mitigate the incidents. Dr. Artem Gelis has reviewed these documents, and there have been no changes.

In the event of an incident mentioned in these documents where the RSO would need to be notified, an AU (Artem Gelis) for that material would also be notified.

We also confirm that Dr. Artem Gelis will continue to be responsible for the safe use of materials listed in subitems 6.AX. through 6.BI. in accordance with section 8.7.2, "Authorized User" in NUREG-1556, Volume 7, Revision 1.

Thank you for your guidance and oversight throughout the amendment process.

Sincerely,

Dr. Terry Grimm
President and Senior Scientist

Dr. Artem Gelis
Associate Professor, Radiochemistry
