Timkin Motor and Crane Services, LLC  
30 Gando Drive  
New Haven, CT 06513

SUBJECT: TIMKIN MOTOR AND CRANE SERVICES, LLC, REQUEST FOR ADDITIONAL  
INFORMATION, MAIL CONTROL NO. 612093

Dear Mr. Gibbs:

This is in reference to your financial assurance submission dated August 25, 2018, and received May 6, 2019, requesting that your Decommissioning Funding Plan (DFP) be approved for NRC License No. 06-31045-01. On April 22, 2019, you were sent an e-mail requesting additional information to complete the review. As of date of this letter, a response has not been received. In order to continue our review, we need the following additional information:

1. Have you increased your possession limits since your last revision of the DFP in July 2015?
2. Have you generated more radioactive waste and, as a result, storing more radioactive waste than accounted for in the July 2015 DFP?
3. Has your use of licensed material caused additional areas of your facility or areas outside your facility not accounted for in your July 2015 DFP to become contaminated?
4. Has your radioactive materials waste vendor raised their rates more than the rate of inflation?
5. Have labor rates, according to the U.S. Bureau of Labor Statistics' charts (<http://www.bls.gov>) for technicians, Health Physicists, et alia outpaced inflation?

If the answers to the above questions are all "No," then the assumption that raising your financial assurance obligations by the rate of inflation is correct. If any of the answers to the above questions are "Yes," then the portions of the DFP that are affected need to be recalculated.

We will continue our review upon receipt of this information. Please reply to my attention at:

Steven Courtemanche

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at (610) 337-5075 or via electronic mail at [Steven.Courtemanche@nrc.gov](mailto:Steven.Courtemanche@nrc.gov).

Thank you for your cooperation.

Sincerely,

Steven Courtemanche, Health Physicist
