Director of Nuclear Reactor Regulation
US Regulatory Commission

Dear Sir;

FREEDOM OF INFORMATION
ACT REQUEST

FOIA-79-101
REC'D 4-6-79

I am a student at Penn State University; and we have a nuclear reactor here on campus (Breezeale). The reactor is located in a heavily populated area, quite close to a dormitory complex. With the recent closings of five reactors in this part of the country (Beaver Valley, etc.), I've become concerned with the students' and faculty's safety here.

Under the Freedom of Information Act, I request the following information:

- (1) A report describing the nature of work performed in the Breezeale reactor and a summary of the precautions taken to ensure the safe operation of the reactor (protections against leaks, waste disposal, earthquakes, etc.)
- (2) A summary of any accident-evacuation plans that may be on file for the PSU reactor.

Yours truly,
Michael Petruska
