Docket Nos.: 52-025
52-026

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555-0001

Mr. Fred Brown
Director, Office of New Reactors
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Southern Nuclear Operating Company
Vogtle Electric Generating Plant – Units 3 and 4
Combined License (COL) Operational Programs and
Other License Conditions Implementation Schedule

Ladies and Gentlemen:

The U.S. Nuclear Regulatory Commission (NRC) issued Combined Licenses (COLs) NPF-91 and NPF-92 to Southern Nuclear Operating Company (SNC) pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 52.97, "Issuance of combined licenses," on February 10, 2012.

Two license conditions require SNC to submit, no later than twelve months after issuance of the COL, the following:

- A schedule for implementation of the operational programs listed in the Final Safety Analysis Report Table 13.4-201, including the associated estimated date for initial loading of fuel (COL section 2.D.(11))
- A schedule for implementation of the license conditions listed in COL section 2.D.(12)(f)1-9

In accordance with the license conditions, the schedules shall be updated every six months until twelve months before scheduled fuel loading, and every month thereafter until each license condition has been fully implemented.

Enclosure 1 contains the COL Operational Programs and Other License Conditions Implementation Schedule. Enclosure 2 contains the Preoperational Test Procedure Completion Schedule. The information provided in the enclosures is current as of August 6, 2019. As is typical with a construction project, the schedule information is dynamic in nature.

The schedule information provided in the enclosures is considered confidential commercial information and exempt from mandatory public disclosure pursuant to the provisions of 10 CFR 2.390(a)(4) and 10 CFR 9.17(a)(4). Following the approach described in SECY-06-0114, no additional withholding determination is needed as the schedule information was demonstrated to be confidential commercial information based on the last schedule update provided to the NRC on February 8, 2019, Agencywide Documents Access and Management System (ADAMS) Accession Number ML19039A264. Accordingly, the enclosures to this letter should be withheld from public disclosure.

This letter contains no regulatory commitments.

Should you have questions regarding the enclosed information, please contact Kelli Roberts at (706) 848-6991.

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

A handwritten signature in black ink that reads "Kelli Roberts" followed by "for MJY". The signature is written in a cursive, flowing style.
