Mr. Donald Sells,
Environmental Projects Branch #2
Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr Sells:

I recieved a letter from Mr. Wm. H Regan, written January 18,
that listed various nuclear plants and the number of schools
and distances between the plant and schools.

I would like additional information concerning each one of the
nuclear plants.

1. How long each plant has been in operation.
2. Does the nuclear plant have cooling towers and 765KV
transmission lines?
3. The size of each plant in megawatts.
4. The name of each school district in the vicinity of
the nuclear plant.

Thank you for your time and consideration.

Jan Tighe
