Mr. Samuel Chilk
Office of the Secretary
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Chilk;

The Oswego County Farm Bureau Board of Directors has voted to apply for intervention status concerning sight application of New York State Electric and Gas Corporation to construct a nuclear facility at New Haven, New York. New York State Electric and Gas Corporation has recently formalized their sight application before the New York State Siting Board. The Oswego County Farm Bureau, in carrying out its policy of becoming an intervenor, would like to know the steps required to be an intervenor before the NRC. Consequently, we would appreciate any information you forward to us concerning intervention status, and that you also consider this a formal application for intervention status before the NRC. In turn, would you please forward all correspondence to the following address:

Nancy K. Weber
R.D.#3
Mexico, New York 13114

Thank you for your consideration and help in this matter.

Sincerely yours,

James Bishop
James Bishop, Pres.
Oswego County Farm Bureau
