Reference: Docket No. 50-285

Dear Mr. Seyfrit:

The Omaha Public Power District received IE Bulletin 79-06B, dated April 14, 1979, requesting that a review of operational errors and system misalignments identified during the Three Mile Island incident be made and that certain information be provided on this subject relevant to the Fort Calhoun Station. Accordingly, a response was submitted by letter dated April 23, 1979. This letter is to inform you that the response contained two minor inaccuracies as follows: (1) Page 6, item 1, last sentence should read "PCV-1849 fails open" (not closed) and (2) Page 7, item 6, first sentence should read "HCV-438" (not HCV-428). These corrections do not change the conclusions reached by the response.

Sincerely,

for W. E. Short
T. E. Short
Assistant General Manager
