Mr. Sheldon J. Wolfe
Chairman of the Atomic Safety and Licensing Board
United States Nuclear Regulatory Commission
Washington, D.C., 20555

Dear Mr. Wolfe,

I am a resident of Rosenberg, Texas and therefore live within approximately twelve miles of the proposed site for the Allen's Creek nuclear power plant. I feel that I should be better informed as to what the consequences of this plant being built will be on my future life. I would like to request an environmental impact statement for the Allen's Creek facility and ask to be made a full party to the Allen's Creek construction permit proceedings.

Thank you for your cooperation in this matter.

POOR ORIGINAL

Cordially,

Jon D. Pittman Sr.
