TRANSMITTAL OF TECHNICAL REPORTS
NRC DOCKET NOS. STN 50-568, STN 50-569

Dear Sir:

On August 9, 1977, we forwarded to your office copies
of the following report:

Biological Modeling of the Effect
of Entrainment on Four Selected Fish
Species at the NEP 1&2 Site, Charles-
town, Rhode Island

It has recently come to our attention that there were
a number of minor errors in Section 4 of this report. We
have reevaluated this information and found that these errors
were editorial in nature and dealt solely with inconsistent
notations used to represent the various parameters in complex
differential equations. The conclusions of the report are un-
affected by these editorial errors. Enclosed please find a
corrected version of Section 4.

Very truly yours,

Joseph Harrington
Project Manager
