Dear Sir:

We have enclosed ten (10) copies of a report by Beak Consultants, Inc., entitled Preconstruction Ecological Studies for the Pebble Springs Site - Supplement to May 1978 Final Report, dated February 1979. This report describes the continuation of a monitoring program begun in 1977 on salmonid smolts, long-billed curlews and raptors. The final report of May 1978, previously transmitted to you on July 7, 1978, described studies regarding fish, vegetation, and birds conducted during 1977-1978 in accordance with the elements and procedures of the Pebble Springs Fish and Wildlife Monitoring Program.

The Pebble Springs Fish and Wildlife Monitoring Program had been established at a January 19, 1977 meeting between representatives of Portland General Electric Company, the Nuclear Regulatory Commission, the U. S. Fish and Wildlife Service (Department of Interior), the U. S. National Marine Fisheries
