NRC PUBLIC DOCUMENT ROOM

Joseph H. Hordue, Chairman
U.S. Nuclear Regulatory Commission
1717 F Street NW
Washington DC 20002

Dear Mr. Hordue:

It has been drawn to my attention that
the Westinghouse Corp. has made application
to build a nuclear power plant in the Philippines.

I oppose this construction because, first of
all, the site is near an earthquake zone and
volcanoes, and to say nothing of the inability
to dispose of the waste, and many other
valid reasons for discontinuing the building
of Nuclear Power Plants anywhere in the world.

You are well aware of the opposition by
wide segments of our population to nuclear
power plants in the U.S. and the reason
why a greater number of people are clamoring
for an end to these poisonous plants.

Sincerely,

Ms. Mary M. H. H.
