RE: Perry Nuclear Power Plant
IE Bulletin No. 79-04

Dear Mr. Keppler:

In accordance with your request, the following information has been prepared as a response to IE Bulletin No. 79-04. There is no seismic category I piping systems that use Velan Swing Check Valves. Furthermore, Velan Engineering Corporation is not one of our NSSS supplier's subvendors. We conclude, therefore, that the concerns of IE Bulletin No. 79-04 are not applicable to the Perry Nuclear Power Plant.

Very truly yours,

Dalwyn R. Davidson
Vice President
System Engineering and Construction
