

CERTIFICATE OF SERVICE

I hereby certify that copies of Revised page 21 of CASE SUPPLEMENT TO PETITION FOR LEAVE TO INTERVENE AND CONTENTIONS of 5/7/79 and Revised AFFIDAVIT OF MARILYN STINSON of 5/22/79 in Docket Nos. 50-445 and 50-446 have been served on the following by hand delivery* or by deposit in the U. S. mail, first class** as indicated below by the asterisk or double asterisk, this 23rd day of May, 1979; I have also sent Mr. Fouke and Mr. Gay, by First Class Mail today, copies of the 5/18/79 ALAB-549 decision.

Lawrence J. Chandler *
Counsel for NRC Staff
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Elizabeth S. Bowers, Esq., Chairman*

further proof in the form of comparisons with other studies by the applicant to substantiate the stated figure.

The report "Nuclear Power Costs," a report by the subcommittee on Environment, Energy, and Natural Resources of the Committee on Government Operations of the House of Representatives, released April 26, 1978, yields far different figures. It states, in part:

"Dismantling a nuclear plant now may cost anywhere from \$31 million to more than \$100 million in 1977 dollars -- between 3 percent and 10 percent of the \$1 billion capital cost. Even the higher figures, however, do not include perpetual care costs for rubble from the plant containing radioactive nickel which may remain hazardous for up to 1.5 million years. After 30 to 40 years, the expected lifespan of a nuclear plant, decommissioning costs would quadruple (assuming 5 percent annual inflation).

"But these figures are all estimates, from the lowest to the highest, and no one really knows how much it will cost or who will pay the bill to decommission this Nation's commercial nuclear reactors. Decommissioning costs therefore represent substantial unknown costs of nuclear-generated electricity -- costs ratepayers may be burdened with 40 years after the reactor startup date."

If the amount for decommissioning the CPSES were figured to be 3% or 10% of the current cost of construction, \$1,700,500,000 (\$1.7 billion plus \$500,000 estimated for the cost of correcting the error in design of the second reactor*), it would yield a figure of between \$51 million and \$170 million.

In the May 7, 1979 issue of FORTUNE magazine, Peter N. Skinner, an environmental engineer in the New York State attorney general's office, is quoted as saying:

* See Contention No. 6. 2, following.

428 046

COUNTY OF SOMERVELL
STATE OF TEXAS

AFFIDAVIT OF MARILYN STINSON

I, Marilyn Stinson, being duly sworn on oath, state the following:

1. That I am a resident of the municipality of Glen Rose, Somervell County, Texas, and that I live at 506 Barnard.
2. That I am over 21 years of age and of sound mind.
3. That my husband and I own a five-axle semi-tractor trailer and operate a business from the above address which consists of refrigerated hauling service in a five-state area, including Texas.
4. That our home, personal and business property are located within five (5) miles of the Comanche Peak nuclear power plant.
5. That I am a charter member of CASE (Citizens Association for Sound Energy) and have been a member for over five years.
6. That for the reasons stated in the most recent Petition for Leave to Intervene and Contentions filed by CASE in Docket No. 50-445 and 50-446, dated May 7, 1979, the licensing for operation of the Comanche Peak nuclear power plant will constitute a serious threat to our property and our health, safety and environment. Specifically, such threat from the routine or emergency operation of the Comanche Peak plant includes: immediate or later death, cancer, other health problems, excessive danger to me personally from the effects of low-level radiation due to my heart condition, destruction or loss of our home, personal and business property, and possibly irreversible damage to the environment.
7. That for this reason, I have authorized CASE to represent me in the public health, safety and environmental aspects of the operating license hearings for the Comanche Peak nuclear power plant.

Marilyn Stinson
Marilyn Stinson

Somervell County
State of Texas

Subscribed and sworn to before me this 22nd day of May, 1979.

Sarah M. Galt
Notary Public
