Senator Richard Stone
2639 North Monroe St., Suite 200B
Tallahassee, Florida 32303

File No. 9058170010

Dear Senator Stone:

I appreciate the support and interest you have shown in the proceedings in which I am involved.

As of May 2, 1979, the Atomic Safety and Licensing Board has given FP&L Counsel 10 days to comment on the contentions that I presented at the prehearing conference. The NRC staff was given 15 days to comment on the contentions, after which the Atomic Safety and Licensing Board will make a decision on my petition.

I am sending you a copy of the contentions and my most recent pleading to help keep you informed of my situation.

Very truly yours,

Mark P. Oncavage
