Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Enclosed herewith are three (3) revised copies of the Inservice Inspection (ISI) Program pertaining to pumps and valve testing and three (3) revised copies of that portion of the program pertaining to non-destructive examination of welds. These programs were originally sent to you with our letters dated September 29, 1977 and November 18, 1977 respectively. The revisions are a result of our findings during piping system walk-downs and review of the program.

We trust that the above submittal of the Inservice Inspection Program pursuant to 10CFR 50.55a shall be found to be acceptable.

Very truly yours,

John Tillinghast
Vice President
